Dear Steve:

1984 will be a critical year for our party and, most importantly, our nation. The voters will be asked to decide whether to continue on the course of economic recovery President Reagan has charted or to return to the old Democrat policies that have brought about high inflation, high interest rates, and high unemployment.

The stakes are too high for us, as Republicans, not to put forth our very best effort.

Our nation needs a strong and effective Republican effort! And the Young Republican National Federation can play a decisive role in that effort.

That's why we are pleased that you are seeking election as YRNF chairman. Your record of effective leadership at the county, state, and national levels make you uniquely qualified to serve as chairman. Your energy, talents, and experience will provide the YRNF with solid, effective leadership for the challenge ahead.

Steve, we are pleased to endorse your candidacy for YRNF chairman and lend whatever assistance we can to your campaign.

Wishing you every success,

Cordially,
