WASHINGTON, D.C. 20510  
February 9, 1984

The Honorable Bud Shuster  
House of Representatives  
Washington, D.C. 20515

Dear Bud:

We would like to take this opportunity to remind you once again of how important we believe it is to quickly clarify that the Valley City bridge is eligible for funding under the discretionary bridge program.

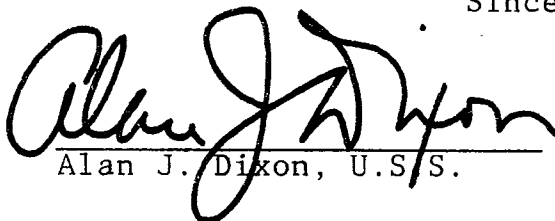

We are well aware of the problems that prevented enactment of highway legislation last year. We know you are working very hard to resolve the controversies that currently prevent the House and Senate from sending any highway bill to the President.

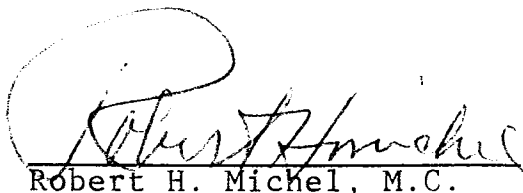

However, we confess to a rising sense of frustration over the fact that non-controversial matters like the Valley City bridge clarification are still being held hostage, and that it is still rather uncertain as to when these innocent victims will be freed. As you well know, the Valley City bridge clarification is supported by the Federal Highway Administration. It passed both the Senate and the House last year, but it is now February, 1984, and it has not yet been signed into law.

We therefore urgently request that you, as one of Congress's leaders on highway issues, do everything you can to ensure that the Valley City bridge clarification be included in whatever bill emerges when the current impasse is broken. While it may seem like a small matter considering some of the other issues you are facing, it is not a small matter to the citizens of West Central Illinois. They are depending on the economic development potential that the Central Illinois Expressway project -- of which the Valley City bridge is an integral part -- will bring to an area that has sometimes been called "forgottonia" because of the way it has been ignored by the federal and state government.

We appreciate your past support of this vital clarification. Thank you in advance for any assistance you can provide.

Sincerely,

  
Alan J. Dixon, U.S.S.

  
Robert H. Michel, M.C.

  
Charles H. Percy, U.S.S.

  
Richard J. Durbin, M.C.
