Dear ...:

Let me acknowledge with thanks your letter with reference to the question of making available transportation from public funds for children in parochial schools.

This matter was rather roundly considered sometime ago but is not presently before us for action insofar as I know.

I presume a constitutional feature in this matter raised most concern on the part of a committee of the House of Representatives which made a considerable investigation of this problem a year or two ago. I am glad to have your note and you may be assured that this will have good attention.

Sincerely,

Everett McKinley Dirksen
